ALL BLEED ADS MUST HAVE 0.125 INCHES PAST THE TRIM EDGE AND ALL LIVE AREAS MUST REMAIN .25 INCHES INSIDE THE PAGE TRIM SIZE.

Fractional ads, use the non-bleed dimensions as your live area. Do not allow any essential type or art to fall outside this area. For spread ads, do not place any essential type or images across the gutter (center line) without adding .125" space on each side of the fold for safety (total .25").

All ads must be submitted in digital format. Preferred file submission: CMYK or grayscale, high resolution (300dpi or greater) Photoshop-compatible EPS, TIFF, JPEG or PDF files. If supplying layered files, all support images and fonts must be included with all fonts converted to outlines.

Other acceptable file formats are: Mac-compatible InDesign CS6 or Illustrator EPS files, collected with all working files and Postscript fonts (screen and printer) included.

IMPORTANT PRINT NOTE: All SPOT, RGB, & LAB COLORS SHOULD BE CONVERTED TO CMYK to avoid any color conversion/transparency flattening issues. In addition, if a pdf file is supplied, all text must be converted to outlines.

PUBLISHER IS NOT LIABLE FOR INFERIOR OUTCOME IF GUIDELINES ARE NOT FOLLOWED.

This publication prints in a web offset, CMYK format and to SWOP standards. For color critical ads, two digital color proofs must be provided, created from the supplied digital file on a contract-quality, digital halftone proofing system in accordance with SWOP standards (Imation Digital Matchprint, Kodak Approval, Iris, Rainbow, etc.)

Laser or inkjet proofs are not considered accurate in color and will be used for content confirmation only.

Publisher is not liable for color inaccuracy if guidelines are not followed and color proofs not supplied.

If you have questions or concerns regarding ad or insert specifications, please contact Angela Marlett at 800-682-8114 ext. 5. For ad sales information, please contact your account manager.
